BOUNCE IMAGING

RECCE360 TW

THROWABLE TACTICAL CAMERA

GAIN THE UNFAIR ADVANTAGE

Designed for military, police, and tactical teams, the **RECCE360 TW** enhances tactical superiority with **real-time 360° surveillance,** integrated MANET communication module, allowing for **secure, long-range transmission,** ensuring operators stay informed and in control in any environment.

PERSISTENT CONNECTIVITY IN COMPLEX ENVIRONMENTS

TrellisWare MANET keeps the camera connected in dense buildings, tunnels, and other challenging terrain—no fixed infrastructure required.

EXTENDED OPERATIONAL RANGE

With a minimum range of 150 meters—and mesh networking across other TW devices—extends teams communication capabilities over greater distances.

RESILIENT AGAINST INTERFERENCE

Adaptive networking ensures video continuity even in contested or congested environments.

ATAK INTEGRATION

Share live 360° video feeds across units for synchronized decision-making and enhanced mission effectiveness.

DEPLOYABLE PAYLOAD FOR UAS/UGV

Droppable, ruggedized payload for unmanned platforms. Extends MANET and provides live video feed.
